

The Republicans of Ohio are rejoicing at having obtained Gov. Chase's consent to be a candidate for re-election. The Buckeyes are proud of their record, and the Whigs are equally proud of their good and honest Electoral Executive in the Union. Gov. Chase has given many popular every day since his election. He is a wise and upright Governor, and a fair exponent of the principles of the Republican party, in Ohio.

There are thousands of men who opposed his candidature two years ago, who will give him a cordial welcome now. He has done a great service before he was beaten in his own country—Hamilton, 5,000 votes. His friends have no doubt but he can carry it next Fall by a decided majority. It is believed that the remains of the "American" party will put up a candidate against him. The dispensation of the patronage belonging to his office, was made with considerable difficulty, and it will be a serious sacrifice to all positions of the opposition.

Under his prudent and economical administration the taxes of Ohio have been reduced nearly two million dollars, so that financially as well as politically it stands high with the people. All credit goes to the good and honest Governor. His services have been great; and the people of that State, are resolved to retain his services as long as the organs will allow them.

A Modern Minerva.

On the third page of 10-67's Tribune, we print a part of a circular letter addressed by T. L. Nichols and Mary S. New to husband and wife—*to whomsoever will read, announcing their intentions concerning to the Catholic Church, all of which is, as we understand, to be done in the Archdiocese of Cincinnati, to whom an introductory note is prefixed. These mignytes are a precious psalm, and as they and their pretended reformatory labors have heretofore commanded a share of public attention, by the boldness with which they have manifested their religious opinions, to which they have at different times given vent, we shall not ever let the reader be deviated from the path of the true. The remainder of the article is an exposition of the deplorable consequences of an attachment to the Church.*
